Village of Chaumont News

The Village Dissolution Study meetings will be held on the 4th Wednesday of each month at 6 PM in the Town of Lyme/Village Municipal Office

NEXT MEETING: JUNE 26, 2019

JULY MEETING: JULY 24, 2019

The Development Authority of the North Country (DANC) will preside over the meetings and provide technical services to complete a Village Dissolution study. Partial funding for the study was obtained from a NYS Reorganizational grant. The process will take several months to complete and the decision to dissolve will be determined by a public referendum vote of Village residents. Public meetings will be held along the way to discuss the potential impacts and resident concerns. Interested residents of the Village and Town are encouraged to participate in all informational meetings. Information and meeting minutes are available online at <https://www.danc.org/chaumont-study>. If you have any questions or comments concerning the study, please call Karen at the Village office at (315) 649-2900.

From the Chair

Although the Lyme Light is not an official town publication, I think that certain actions affecting residents should be publicized here. Currently, the Chaumont Dissolution Study which the Development Authority of the North Country is overseeing is underway. The study committee met on June 3, and will have met again on June 26, prior to the publication of this issue. I will report briefly on the topics covered, but my main concern with this announcement is to let everyone know that all meetings will take place at the Town Office on the 4th Wednesday of each month (except in November & December) at 6 P.M. and are open to the public. Additional information is available on the DANC website as is listed in the ***Village of Chaumont News***.

And if you missed the presentation in February on Ciscoes in Chaumont Bay, you have another opportunity to see it at the Lyme Heritage Center on July 21, 2-4 PM. Dr. Ellen George has done an enormous amount of research, and her presentation is flawless.

Lastly, the eaglets will have flown by now; they have been fun to watch while they are fledging. I hope the nest is used again next year.

A small portion of all class fees is donated to the Copley House.

Thank you for supporting the Lyme Community Foundation.

A Message from the President

I know that I am as happy as the rest of you to finally see summer arrive. It has been the worst spring in recent memory. After the floods of 2017 we never expected that it would happen again just two years later. Thank you to all of our emergency response teams and local fire departments who worked together to help secure and even save many of our local residents and businesses during the most recent floods.

The Copley House is buzzing with a variety of classes and activities and we hope that you will take advantage and attend as many as possible. For many of us driving to Watertown to attend classes and events can be a real inconvenience so we are trying our best to bring these events and programs to the Copley House. The Copley House is our community center and it is here to provide as many programs as possible for the residents of the Town of Lyme.

Don't miss the Lyme Community Day events on the lawn of the Copley House on Saturday, July 27. This is always a great community event and brings many people to our community. There will be plenty of crafts, foods and activities.

We wish you and your family a very Happy 4th of July. Enjoy the time with your family and friends and lets all pray for good weather!!

Deanna Lotthrop

Lyme Community Foundation President

Lyme Garden Club

A garden is a grand teacher. It teaches patience and careful watchfulness; it teaches industry and thrift; above all it teaches entire trust. –Gertrude Jekyll

Summer has finally arrived and we've had to put a lot of trust into Mother Nature! All through 2019 we will share a Horticulture Calendar with you that will provide monthly gardening tips and reminders. The following are gardening suggestions for the month of July.

- Keep an eye on the weather and the amount of rain received. You can buy a simple rain gauge to measure natural rain-it would have been interesting to see how much rain northern NY received in April, May and June!
- Always strive to water deeply to strengthen roots and keep water off the leaves. Frequent, shallow watering just encourages shallow roots which are less resilient. Irrigation systems are a really good way to water-it keeps leaves dry which help suppress diseases. A nice layer of mulch also keeps the soil moist and helps to keep down weeds.
- Vegetables need an inch of water a week. Late in the summer when plants are large and we have warmer temperatures, they might like a bit more-up to 1.5 inches of water.
- Ornamental gardens need to be monitored too but are usually quite resilient.
- Newly established trees and shrubs need to be watered deeply at least once every week in the summer during dry spells; with rainfall, once every two weeks should be fine.
- Applying a 2-3 inch layer of mulch around trees will keep their roots moist and reduce evaporation from the ground. Keep mulch away from the bark. In their second year, trees/shrubs should receive supplementary watering once every three weeks in the summer. Key to this watering is deep and infrequent.
- Don't water your lawn during hot weather. Watering-particularly frequent, light watering- encourages lawn diseases and weeds.
- Harvest any garlic that still isn't harvested. Divide Oriental poppies and German iris.
- Pinch petunias and other leggy annuals for bushier growth.
- You can still plant some crops from seed such as beans, snap beans, romaine lettuce, radishes, corn and summer squash.

Please join us Saturday, June 29, 10-4 for our Artists and Gardens Tour. We'll feature six beautiful gardens, a Garden Shop at the Copley House, plant sale, and fabulous luncheon catered by Paul Norton. Tickets are \$20.00 and are available at Citizens Bank in Chaumont or at the Copley House on the day of the tour. Tour will take place rain or shine. If you have any questions or ideas for future activities, contact the steering committee at lymegardenclub@earthlink.net.

A Chaumont Sailor's Adventure

by Margaret Putnam Brennen

Edgar Talbot crossed the Atlantic Ocean by ship at least twice, but his greatest voyage was across Lake Ontario.

In 1938 Edgar was an unemployed Chaumont electrician. He desperately wanted to see the Canadian National Exhibition in Toronto and he figured that he could get himself there across the lake. He knew how to sail, but not how to swim. And he didn't own a life preserver. Or a boat.

Edgar was born in 1903 in West Ham, Essex, a suburb of London, England. In 1906 his family emigrated to Deseronto, Ontario (near Belleville). They lived in Canada until 1909, and then they moved to Hounsfield. In 1919 the whole family returned to England, but they came back to Jefferson County the same year, this time residing in Watertown. By the mid-1930s they were permanently settled in Chaumont.

In the summer of 1938 Edgar began to assemble a sailboat using scrap materials from around his house. He lived in Chaumont near the river, and he built his sailboat in the little cove between Schermerhorn Park and the end of Water Street.

He designed the boat along the lines of a St. Lawrence skiff. For a spar he cut down a 14-foot cedar tree; for the rest of the boat's body he collected household lumber scraps. He put on a false stern made of bent galvanized iron, which he made watertight by soldering it. The extra space was a storage compartment for food and clothing, and it added buoyancy to the boat in the event of capsizing.

He sewed the sails out of old sugar bags. In test runs he found that they didn't catch the wind well, so he coated them with household wax dissolved in hot gasoline. The combination made the sails airtight and waterproof. His last piece of engineering was a compass he constructed with a brass cylinder from an old oil lamp and some "odds and ends" around the house.

He estimated he'd spent about \$3 to build his boat.

Edgar left Chaumont for Toronto on August 1, 1939 with 75 cents in his pocket and no life preserver in his boat. He sailed along the southern edge of the lake in small jumps. Because he had very little money or food, he would stop occasionally and find odd jobs to replenish his stores. He arrived in Sodus Point on August 4th and paused there to work for four days.

After he left Sodus Point he went to Rochester, where

he was forced to dock for several days and wait out a storm.

He encountered strong winds as he rounded the western edge of the lake and water began to leak in through the bow. On his last night in the boat he was forced to bail all night long. At one point he fell overboard, but he managed to pull himself back on by grabbing the boom. When the sun rose he could see Toronto. It had been two weeks since he left Chaumont. When he reached the dock his legs were so cramped, he could barely climb onto the dock.

After seeing the Exhibition, someone took Edgar back to Chaumont by car. It's not clear what became of his boat. Edgar's son Rowland suspects that Canadian authorities seized the sailboat; Rowland says that Edgar may not yet have received American citizenship, and that he probably traveled into Canada without the appropriate papers.

Edgar spent the rest of his life in Chaumont. He made his living as an electrician and developed a reputation as an unusually hard-working man. A few hours before he died, Edgar had been going up and down a ladder removing shutters from a house he was planning to help paint. He was 85.

The Lyme Community Foundation would like to thank Steve Hunt for serving on the board of the Lyme Community Foundation for many years. Steve has resigned from the board to spend more time with his family.

Steve was instrumental in bringing the annual Haunted House to the Copley House and without him the event would never have happened. The haunted house became his part time job for over a month each year and we can not thank him enough for all he did to make it so successful each year. Steve also helped to create the summer movie series on the lawn of the Copley House each summer and he served as the Vice President of the Foundation and was the chair of the events committee.

Steve lives next door to the Copley House and he snow-blows the sidewalks, when needed, every winter to make sure the house was open for visitors.

Steve was an expert on Strategic Planning and not only created the strategic plan for the foundation but also assisted Lyme Central School in completing their strategic plan during the past year. We will truly miss Steve on the board but we know that he isn't far away so it isn't good bye but it is see you later!!!

First Annual Barns & Boats Bike Tour

"Nothing compares to the simple pleasure of riding a bike" – John F Kennedy.

Register soon for the Barns & Boats Bike Tour! The first annual Barns & Boats Bike Tour will be held on Saturday, July 6. It is being established as the annual fundraising event to bring the sport of open water rowing to the North Country to promote active lifestyles in our beautiful region. The Lake Ontario Rowing Club (coming in 2020) will provide opportunity and access for those in the north country to learn and enjoy the incredible sport of rowing. The Barns & Boats Bike Tour is also part of the mission to foster personal wellness and appreciation for the scenery along the way. You can register for one of three routes; each will mix water and land views while passing by local wineries and farms. The registration fee for the short loop is \$35 while the fee for the medium and long loop is \$55.

Register for the event at www.BikeReg.com/barns-boats-bike-tour. For more information, contact Julie Smith at (617) 945-4849.

Registration on the day of the event will begin at 7:30 AM. All rides will start at Bay Breeze Golf Links at 11390 Cheever Road in Chaumont, New York. The rides are open-course and participants must abide to all rules of the road established by New York State.

A post-ride barbeque will be held for all tour participants and is included as part of your registration fee. Cost for the barbeque only is \$10 with food being available around 11:30 AM.

LYME LIGHTS Relay for Life Paddle for the Cure 2019!

Save the Date! Submitted by Joy Seymour

The 2018 Paddle for the Cure was a great success, and the Lyme Lights Relay for Life team hopes to continue to raise more money for Cancer Research again this year. Last year, we had 34 paddlers which raised \$700, and with the raffle ticket sales of \$767 there was a grand total of \$1467! Way to go! Last year's "Paddle" was held in memory of Mike Bashaw, Sr, and Colleen McCarthy. And, the best part was Tim Bashaw (Mike's son, and Colleen's husband), and his daughter Brynn Bashaw (Mike's granddaughter, and Colleen's daughter) won the kayak! It was a very touching moment to present the kayak to a truly deserving family who have had more than their share of tragedy due to cancer. Thanks for all who have participated and we hope to see you again this year! Spread the word! Join us for a leisurely paddle around Independence Point, and help paddle cancer right out of existence!!!

When: Saturday, July 20th

Registration: 8:30-9:00 AM

Where: Launch from Chaumont Beach, Chaumont NY at 9 AM

Cost: \$20.00 per paddler

This year's paddle is in memory of Kim Wallace. (even with a paddle blocking part of her face - her joyous spirit shines through)

Cost includes a picnic and 1 free raffle ticket for a chance to WIN a NEW KAYAK!

All proceeds to benefit the American Cancer Society! For more info. Call Joy @ (315) 767-3702 or Karen @ (315) 408-4010

Lyme Heritage Center

The Lyme Heritage Center is now operating on its summer schedule; Monday and Tuesday 10 to 12, Wednesday and Friday 1 to 3. We are looking for volunteers who can work a couple of hours a week during these times. However we realize that these hours are not convenient for working people; so we are also looking for volunteers who could donate a couple of evening hours or Saturday hours. Otherwise, if you want to use the Center at a time it is not open, call Terry at (315) 486-1232 or Becky at (607) 316-4882.

Our next program, on Sunday, July 14th at the Center from 2 to 4, will be presenter Tom LaClaire talking about dating old photographs. If you are the family historian, you probably have a drawer full of old photos with unidentified ancestors. If you know the year the photo was taken, you can make an educated guess as to the names of the individuals. If you have some of these mystery photos bring them to Tom.

Then on Sunday, July 21st, from 2 to 4 at the Center, Ellen George will return with her program on Ciscos of Chaumont Bay. Ellen was here earlier this year, but there were people who were unable to attend that day or want to see it again. So we are offering a repeat of the program. The earlier program was very enjoyable and enlightening.

Scott Aubertine will entertain with his music on August 18th from 2 to 4 at the Center. Scott was a hit last year with his tour of musical history, which became a sing-a-long for many attendees. Such fun.

We remind you again that Roadside Relics will accept your donations of cans and bottles, and they will credit this money to The Lyme Heritage Center. This will help us buy a flat drawer file cabinet for the many oversize pictures and maps that are part of our collection.

The 2020 calendar featuring the historical district of homes on Point Salubrious, is now available for sale for \$10. The previous years' calendars are also still for sale. The 2017 calendar features pictures of the historic district of homes in Town of Lyme; the 2018 calendar has pictures of the historic district of homes in the Village of Chaumont; and the 2019 calendar has photos of the historic district of homes in Three Mile Bay. These calendars and others of our publications are available for \$10 at the Lyme Heritage Center, at the Citizens Bank of Cape Vincent, or the Lyme Free Library.

Following are some of the books that might be of interest.

Bedford Journal - \$25 *Ernest Cook, any volume* - \$10
Founding of The Schools of Lyme - \$20
History of the Town of Lyme - \$5 *Stone Houses* - \$20
Point Salubrious Book - \$25 *Postcard Book* - \$15
Railroad vol 1 & 2 - \$20 *Schermerhorn Park* - \$15

ACTE II

Ladies! Want or need a wardrobe adjustment and don't want to go out of town? Come to Acte III!

Acte II is the charming boutique of gently used ladies clothing and accessories located in the beautifully restored Copley House on Main Street in Chaumont, New York.

Acte II is the place to find something to enhance an outfit, provide a change to your summer wardrobe, try out a new style, or add an "I really like it!" top, purse, bracelet, pair of capris, etc.

Come in and you will be amazed at all there is to choose! A friendly, well-informed volunteer will be there to lend a helping hand.

Acte II is staffed by volunteers and there is always a space for someone to help and fill a two or four hour shift! It's fun! Acte II also accepts donations of gently used items. All proceeds are used to maintain the Copley House.

We are open **Thursday – Sunday from 11:00 AM to 3:00 PM**. Please come and visit us!!

If you have any questions, please call Lynda Carney at (315) 649-5224.
